

CAREER EXPLORATION NIGHT

Panel Descriptions

Business Management & Entrepreneurship

Starting Your Own Business: What's It Like Being an Entrepreneur?

Meet small business owners, nonprofit directors and people who have turned ideas into real companies. Learn what running your own business is really like!

INFORMATION TECHNOLOGY

Computers, Software and Digital Design: Can You Make a Living in Cyber Space?

As an IT specialist, you might work with computer hardware, software, multimedia, or network systems, design new computer equipment or work on a new computer game. Find out if the IT field is right for you.

ARTS & ENTERTAINMENT

Art, Cameras, ACTION!: Are the Worlds of Design, Video and Film Really that Glamorous?

Find out what goes on behind the scenes as professionals in the film industry and fields of photography, graphics design and theatre share insights about what their jobs are really like.

HEALTH SCIENCES

Sports Therapy, Biomedical Engineering, Nuclear Medicine: Health Sciences isn't just about Doctors!

The branches of health science are virtually endless, spanning the rewarding traditional jobs like being a doctor, nurse or pharmacist, to surprising new job opportunities in therapy, research

and biotechnology. If you like science and the idea of helping people, this may be the field for you.

SCIENCE

From Microscopes to Mountain Tops: What in the World can you do with a Science Degree?

Not all scientists wear white lab coats and work with 3-eyed monkeys – there are countless ways to help the world through a career in science! From forensic research that solves crimes, to finding new energy sources or hiking rain forests in search of exotic plants to cure cancer....there is something out there for anyone intrigued by solving problems, helping others and/or exposing mysteries.

MARKETING & SALES

Marketing & Sales: What are Amazon and the Gwinnett Braves Both Looking for?

Some of the highest growth tech companies, like Amazon and Face book, have a great need for marketing managers. There are also jobs in web development, advertising and promoting sports teams – find out the skills you need to promote yourself in the field of marketing and sales.

LAW & PUBLIC SAFETY

You Have the Right to Remain Silent (but Law & Public Safety are Careers Worth Talking About!)

Is being a lawyer, a police officer or a fire chief as exciting in real life as it is on TV? Ask these panelists what it's like to work every day at keeping our communities safe, and what you can do to become part of the team.

ARCHITECTURE & ENGINEERING

Designing, Building and Engineering Your Future: Can You Construct a Career?

If you like math, solving problems and building stuff, then engineering may be the field for you. This field offers exciting opportunities for both men and women, with career paths that include architecture, aeronautics, homebuilding, protecting the environment and much more.

SKILLED TRADES CAREERS

Cakes, Cranes, and Automobiles: Do You Like Working with Your Hands?

There are lots of really great jobs that you can get trained for without going to a 4-year college. Jobs like being an electrician, mechanic, culinary chef, or heavy machine operator. For

example, crane operators get paid to move heavy objects at construction sites, a job that requires great focus and skill. Find out what skilled trades might work for you!
